2. Any modifications to dryer gas lines required during installation will be the responsibility of the vendor and shall be performed by a licensed plumber.
3. Gas lines for dryers shall be rigid pipe only. No flex pipe will be allowed.
4. Any electrical supply modifications required for installation of new washers or dryers will be the responsibility of Collin County Facilities Maintenance.
5. If dimensions of new dryers are larger than current dryers from front to back, new dryers may be installed farther into the laundry area by approximately six (6) inches in order to utilize existing gas lines and exhaust ductwork.
